

ITE 2020 Status: Preliminary Announcement (13 July 2020)

TKS, organizer of ITE Hong Kong, is deeply concerned with the rising number of locally infected Covid-19 cases in recent days. We will closely monitor how the situation develop and evaluate all possible options, planning to make a decision and announcement within this week.

We know it never easy to strike a right balance between safety and recovery, which were what we have doing in past months - postponing, requiring large pavilion to break up the co-exhibitors into smaller cluster, and tightening safety measures etc.! If it ever comes to a point requiring a choice, it's clear to us, safety comes first!
