ITE Hong Kong 2026 Significant Measure taken ensuring Safe Visit to Ugandan Pavilion

TKS, the organizer of ITE Hong Kong, would announce that in view of the significant measure taken, **visiting the Uganda Pavilion in ITE2026 is safe from concern on Ebola!**

In fact, the Ugandan Embassy in Beijing, which organizes the Ugandan Pavilion this year, confirmed in writing on May 26, **“We will only have people from the embassy and within China participating in the expo (ITE). No travelers from Uganda will participate.”** Our deep appreciation to Uganda for their voluntary decision and speedy action!

A new and niche destination, it is the very first time for ITE having an official participation from Uganda! Our warm welcome!

Known as the “Pearl of Africa”, Uganda, premier East African destination, offers world-class wildlife viewing notably tracking endangered mountain gorillas; white water rafting on the Nile River; diverse bird watching; historical sites, and authentic community experiences etc.

Thus, visitors will have safe visit in the Ugandan Pavilion to learn more about the various attractive offers.

ITE Hong Kong 2026 will be held from June 11 to 14 in Halls 1C, D and E of HKCEC. For details of visiting, please visit our trade website of www.itehk.com.
